Transformation in Motion

Preparing for the Season

The changing leaves are a beautiful reminder that progress never pauses. While the colors peak, our crews are clearing leaves, tidying common spaces, and readying walkways and entrances for the season's first snow to keep our neighborhood safe and cozy.

Legacy of The Beeches

Where It All Began

The Beeches was constructed between 1915 and 1924 as the family home of inventor and head of the Rome Wire Co., Frank Potter. The 72-acre estate, named for its stately beech trees, boasts stunning views of the Rome countryside and offers easy access to the city. In upcoming newsletters, we'll uncover the hidden stories, remarkable rooms, and fascinating people behind this historic estate. Stay tuned!

Community Connections

Networking at The Neighborhood

In October, Beeches Manor was excited to host a community networking event in partnership with the Rome Young Professionals Exchange (RYPE) of the Rome Area Chamber of Commerce. Sponsored by Indium Corporation, the evening brought together nearly 40 professionals from across the Copper City and Mohawk Valley for great conversation, connections, and collaboration.
